

IMMERSION MIXER USER MANUAL

Dear customer,

Please read these user instructions carefully before connecting the appliance to prevent damage due to improper use. Please pay special attention to the safety regulation.

Safety regulations

- Incorrect operation and improper use of the appliance can seriously damage the appliance and injure users.
- The appliance may only be used for the purpose for which it was intended and designed. The manufacturer is not liable for any damage caused by incorrect operation and improper use.
- Keep the appliance and electrical plug away from water and any other liquids. In the unlikely event that the appliance should fall into water, immediately pull the plug out of the socket and have the appliance checked by a certified technician. **Not following these instructions could give rise to life-threatening situations.**
- Never try to open the casing of the appliance yourself.
- Do not insert any objects in the casing of the appliance.
- Do not touch the plug with wet or damp hands.
- Regularly check the plug and cord for any damage. Should the plug or cord be damaged have it/them repaired by a certified repair company.
- Do not use the appliance after it has fallen or is damaged in any other way. Have it checked and repaired, if necessary, by a certified repair company.
- Do not try to repair the appliance yourself. **This could give rise to life-threatening situations.**
- Make sure the core does not come in contact with sharp or hot objects and keep it away from open fire. To pull the plug out of the socket, always pull on the plug and not on the core.
- Make sure that no one can accidentally pull the core (or extension cord) loose or trip over the cord.
- Always keep an eye on the appliance when in use.
- Never let children use home appliances without supervision.
- Always pull the plug out of the socket when the appliance is not being used and always before cleaning.
- Warning ! as long as the plug is in the socket the appliance is connected to the power source.
- Turn off the appliance before pulling the plug out of the socket.
- Never carry the appliance by the cord.
- Do not use any extra devices that are not supplied along with the appliance.
